

Catseye Videoscope Take Up Reel

Includes Take Up Reel, Side Mount and 6 foot reel to handset extension cable. Hand set and probe sold separately.

PN6000-TR

Description

The CatsEye 6000 Videoscope Reel allows for compact portability of a CatsEye video scope with custom lengths of 20 meters or more. The reel is equipped with a slip ring (also referred to as a rotary electrical interface, electrical swivel or electrical rotary joint) and a convenient CatsEye 6000 Hand Set holder mounted to the side of the reel. The reel is equipped with a standard 6 foot hand set extension cable permanently attached to the reel—enabling the user some mobility while conducting an inspection. The lightweight and stable design of the reel provides for a durable and reliable product to take on the field or in hazardous environments.
